

## Attention Parents!

This year it is recommended by faculty to turn in any papers that require a parent signature. One of the most important papers is the internet agreement that will allow students to participate in fun activities in the computer lab or classrooms. There is also a reminder of a few important rules students are expected to follow on campus at all times. First, students are prohibited to bring gum to school, cell phones should be off and stowed in backpacks, not used during school hours (8:25A.M.-2:55 P.M.). Any cell phones taken can be claimed in the office after school on Wednesdays and Fridays only by parents. Students are also required to fill out their planners daily to ensure all homework is turned in on time. At the end of this article there is a link of the Sequoia Middle School website that will also give more in-depth information including dress code, grades, sports and much more. The schools website is recommended to be visited whenever you have a question about anything; it may be able to help you with your needs. The Sequoia Middle School website also provides brief three to four minute video announcements that can be found on the home page. In the window of room 401 hangs an electronic bulletin board which can be seen from the front gates of the school where students enter. Every now and then students will receive flyers or notes sent home to remind upcoming events, calls can be made home as well. Students have a calendar providing important events, school rules, and district policies.
