

## Color guard

Color guard tryouts are still going on and I know lots of girls are trying out. I am one of them. And I know that all the girls trying out want to be in the color guard team.

I interviewed Monica Guerrero asking her what are the main things she's going to be looking at. This interview might help all the girls wanting to be in the color guard team. This is what I asked her and this is what she responded:

Jackie: "Monica when you're choosing the people what are the main things you're going to be looking at?"

Monica: "Well mainly I'm going to be looking at the marching and trawling but if you're not good at trawling and good at marching you can always try."

Jackie: "How many people are you going to choose for the color guard team?"

Monica: "Well there are 22 uniforms, so 22 I'm going to choose 22."
