

# Yes Program

Sequoia Middle School has an after school program called YES.

YES helps students do better on their tasks and on their tests at school. If the students have a question to ask, there are many staff to ask for information. All students can join the yes program and when you're in the system, you are required to attend. Students that are participating in sports have to join the yes program to be allowed to play the games. The Principle, Dr. Santos can make any student join the yes program if they have a failing grade.

I hope you sign in to participate in the YES program.
